

What CMMC Level Applies to Me?

If you work on DoD contracts or support a prime contractor, CMMC compliance is not optional, it's required. Act now.

CMMC LEVEL 1

Your contracts do not include DFARS 7012.

Your organization likely needs CMMC Level 1.

CMMC LEVEL 2

Your contracts include DFARS 7012, 7019, 7020, or 7021.

Your organization likely needs CMMC Level 2.

CMMC LEVEL 3

Your contracts state Level 3; you support high-risk work.

Your organization likely needs CMMC Level 3.

DFARS 252.204-7012

You must protect CUI using NIST SP 800-171 and report cyber incidents.

- ▶ If 7012 is in your contract, you handle CUI. Level 2 compliance is mandatory.

DFARS 252.204-7019

You must perform and upload a NIST SP 800-171 self-assessment to SPRS.

- ▶ If 7019 appears, complete your self-assessment today.

DFARS 252.204-7020

The DoD has the right to audit your NIST implementation.

- ▶ If 7020 is listed, be audit-ready now.

DFARS 252.204-7021

CMMC requirements are active for your contract.

- ▶ If 7021 is present, CMMC compliance is mandatory.
