

Get CMMC Ready for the November 2025 Deadline

Secure CUI. Simplify Compliance.
Win More Contracts.

EXOSTAR'S MANAGED MICROSOFT 365™

WHAT'S AT STAKE

Beginning November 10, 2025, new and renewed DoD contracts may include Cybersecurity Maturity Model Certification (CMMC) requirements, and contractors must be prepared to show proof of compliance when it appears in solicitations.

SOURCE

Find more information about CMMC at the [U.S. Department of Defense Chief Information Officer](#) ➤

CMMC = the DoD's standard for verifying the protection of sensitive data called Controlled Unclassified Information (CUI).

CUI = sensitive DoD information that isn't classified but still must be protected, such as designs, contracts, or technical data.

Does CMMC apply to you? If your contract includes DFARS clauses such as 2252.204-7012, 7019, 7020, or 7021, you're required to protect CUI and will need to demonstrate CMMC compliance to keep or win DoD business.

Secure CUI, simplify CMMC, and collaborate with confidence in a trusted Microsoft Teams environment.

THE SOLUTION

Exostar Managed Microsoft 365™ makes compliance achievable without the burden. It's a fully managed Microsoft Teams environment designed specifically for defense contractors—combining security, collaboration, and compliance into one solution.

Secure Teams & Office 365 environment

Economical & scalable subscription model

Secure internal & external collaboration

24/7 SOC Security Monitoring & Updates

“

“Hit the easy button and go with Exostar—they’ve figured it out. It’s cost-effective, user-friendly, and it works.”

— Chuck Welch, Director of IT, DDC
